

A Fool of Fools

The environmentalists are all worried about an alleged global warming and what they call "A man's carbon footprint."

Me thinks they should be concerned about the global warming that Peter spoke about and the moral footprints he addresses.

II Peter 3:10-12: "10 But the day of the Lord will come as a thief in the night, in which the heavens will pass away with a great noise, and **the elements will melt with fervent heat; both the earth and the works that are in it will be burned up.** 11 **Therefore, since all these things will be dissolved, what manner of persons ought you to be in holy conduct and godliness,** 12 looking for and hastening the coming of the day of God, because of which the heavens will be dissolved, being on fire, and the elements will melt with fervent heat?"

Now there is no doubt that God has placed man on the earth to care for it. **Psalms 8:4-8:** "4 What is man that You are mindful of him, And the son of man that You visit him? 5 For You have made him a little lower than the angels, And You have crowned him with glory and honor. 6 **You have made him to have dominion over the works of Your hands; You have put all things under his feet,** 7 **All sheep and oxen-Even the beasts of the field,** 8 **The birds of the air, And the fish of the sea That pass through the paths of the seas."**

The worry we should share is not global warming caused by man but rather the problems the global warming fanatics produce for man while trying to

manipulate us to their stupid, manmade contortions to allegedly protect the earth from mankind.

Think for yourself. Which is more important to God? Man or the world that God made for man? Which does God love?

The treaties and bans and ideas proposed at Copenhagen last year are alarming!!! Think!!!

They want to tell you:

- How many children you should have.
- At what temperature your house should be.
- What kind of car you should own (Little death traps)
- How many animals or pets you can own.
- What you can and cannot eat.
- What fuel can be used, how much, and how often.

Personal liberty, free enterprise, choice of life and health will become dictated by the government. Of course, that is the real goal of these totalitarians.

Can you imagine:

- The price tag on such an agenda?
- The control they would have?
- The loss of profits to enterprises and small businesses?
- The loss of jobs of both skilled and unskilled labor?

How will the poor pay for this increase in fuel, food, healthcare, or transportation in an anxiety ridden environmental whack-o world with all of the prohibitions and foolish legislation? And who will make the profit on this agenda?

Big government will have to pay. This means a totalitarian government with high taxes. This means that the number of poor people will increase and need provision by big government.

The government of a few elitists will become the lord of God's creation instead of all mankind. **Psalms 8** speaks to all men, not an elite bunch of lords over His world.

What utter arrogance it is to think that mankind living a moral normal life is going to affect the quality of God's world. The truth is, God is much more likely to chasten mankind for man's immoral lifestyle than man can affect it by living normal Godly lives.

It sure was hot around Sodom and Gomorrah for its immoral footprint and their abuse of each other than their abuse of the environment. The Bible says that Sodom was like the Garden of Eden before He destroyed it.

Genesis 13:10: "And Lot lifted his eyes and saw all the plain of Jordan, that it was well watered everywhere (before the LORD destroyed Sodom and Gomorrah) like the garden of the LORD, like the land of Egypt as you go toward Zoar."

God has shown that He casts out His tenets for immorality and abuse of people but never for his abuse of the environment.

What an insult to the wisdom, providence, and sovereignty of God to think His whole creation could be brought to worthlessness by the caretaker He placed over His world. Is God going to allow His tenant to annihilate that which He owns? To think so is just plain "gory".

A fool says in his heart, "there is no God". It is a bigger fool who says that there is a God but He could not design His world to accommodate the billions of people whom He chose to place on His earth.

Color such men "unbelievers" for as Scriptures says in **Isaiah 45:18:** "For thus says the LORD, Who created the heavens, Who is God, Who formed the earth and made it, Who has established it, Who did not create it in vain, **Who formed it to be inhabited:** "I *am* the LORD, and *there is* no other.
